No. A.3.3414/45 dated 14th August 1945

Sir,

Labour Department - Education - Labour school - South Kanara District - Puttur - Under the management of the Depressed Classes Mission - Retransfer to Labour Department - Part II Scheme for 1946-47.

******

In G.O. No. MS. 2253 Dev., Department dated 23.9.40, the Government sanctioned the transfer of the Labour school at Puttur, South Kanara District to the Management of the Depressed classes Mission, Mangalore. The site and the school building were also alienated in favour of the Mission free of cost and land Revenue subject to the conditions mentioned in the G.O. A grant of Rs.100/- towards the cost of maintenance of the school was also sanctioned. The school was accordingly handed over on 1.1.41 and since then it has been under the management of the Mission. The school was amalgamated with the Mission's Koraga school as was intended.

2 The Secretary of the Depressed Classes Mission now states that after the amalgamation of the two schools, the mundala children were gradually withdrawn by their parents and as a consequence the strength and attendance of the school deteriorated and resulted in the school being maintained uneconomically for the past two years. He states that the mission with its meagre financial resources, finds it difficult to run the school. Owing to the fall in strength and attendance, the grants by the Education & Labour Departments were also stopped. The Secretary requests that the management may be taken over by the Labour Department.

3 The Collector of South Kanara reports that enquiries made show that the school is likely to thrive well if it is taken over by the Labour Department. Although only 16 pupils are on the rolls, he states, that there are 67 children of school going age in the school zone and that the colonists have agreed to send their children to the school if it is taken over by the Labour Department. He states that the provision of free midday meals may also prove a special attraction and recommends that the school be taken over as requested by the Secretary of the Depressed Classes Mission. The site and the school building will be resumed and the school furniture will be handed over to the Department. The expenditure involved in the proposal for 12 months from 1.4.46 both recurring and non-recurring is as follows:-

I. RECURRING EXPENDITURE.	Rs.
1. Pay of 1 teacher for 12 months at Rs.23/- per month (23-2/2-45)	276.
2. Dearness allowance at the enhanced rate of Rs.16 per month for 12 months.	192
3. Contingencies @ Rupee 1 per month	12
4. Equipment (Books and slates) initial supply within the powers of sanction by the Collector.	150
5. Monsoon repairs etc. to the building.	40
	Rs. 670/-

The failure of the Puttur school is apparently due to the Mundalas having left it being unwilling to associate with the Koragas. The Collector of South Kanara is requested to report whether this is so and whether any social differences exist between the two communities & if so what they are in order to justify the withdrawal of the Mundala Christians

from the school. He is also requested to state whether the Karapas are likely to be left in possession of the Mission school, if the Labour Dept takes over the management of the amalgamated school

Sir,

LABOUR DEPARTMENT - Education - South Kanara - Labour School at Puttur - Retransfer of the management from the Depressed classes Mission to the Labour Department - Part II Scheme - proposals.

Ref: Government memo No.8416-45-3 dated 4-10-45.

Enquiry shows that the school run by the Depressed Classes Mission at Puttur had failed on account of the unwillingness of the mundalas to associate with the Koragas for whom the Depressed Classes Mission was also running a boarding house. The Depressed Classes Mission started a colony for the Koragars but could not succeed in colonizing them.

2. There are various social differences between the mundalas and the Koragars. The Mundalas consider themselves much superior to the Koragars, who are used to at refuse, and carcasses of animals and who are also doing public scavenging work and are treated as the lowest among the schoduled classes. There have also been no inter-marriages among the two sects so far.

3. There are at preset only seven families of koragars in the Depressed classes mission colony at Puttur, having only about five children of school going age. As there are no chances of the Koragars' colony being improved by th Depressed Classes Mission for some years to come, the Depressed Classes Mission is not likely to open a school exclusively for the Kargars. If the Labour School at Puttur is

P.T.O.

started, the few Koragara children can be persuaded to attend the Labour school as the Mudaliars have no objection either to their admission to the school or to prepare and serve them the midday meals separately. The state of affairs at present, therefore, justifies the re-opening of the Government Labour School at Puttur to serve the educational needs of both the communities.

The failure of the school was apparently because Mundalas left not liking to associate with Koragas. If the Nepal Takes over the school will the Koragas be left in possession of the Mission school? Which

are the Social Lepers, Koragas or Mundalas?

This is like the Mala – Nadiya Initiative in Kurnool

I presume that steps will be taken by the Labour Deptt to see that the communities attend the school.

Thanks; I hope the Koraga children will get into the Ashram School at Puttur. Actually I do not think the RC Mission is at all effective outside Mangalore. They have probably used the Mundalar Koraga as difficult as a convenient way to get out of the conduct of the school which they found a drain on their finances.
